WinCNC CN1/CN2 Interface Board Specs

- DIMENSIONS: 11 ½" x 7 ¾" x ¾"
- 12 relays (250v AC @ 10A, 100V DC @ 5A), controlled by auxiliary outputs
- 8 logical outputs (5v low current)
- 30 opto isolated inputs, can operate @ 5, 12, or 24v (jumper configuration)
- 6 motor connections – step and direction for each motor (6 axis), can be either high or low signal
- Emergency switch to turn off all outputs
- Software watchdog support
- 5V & ground output terminal for external uses
- All inputs and outputs have status LEDs
- Comes with two 37pin cables

**NOTE: Does not come with any jumper pins, or mounting hardware
